Stoneleaf Pembury®

Handmade Clay Plain Tiles

STONELEAF

*Front Cover: Mix of 70% Dark Antique
and 30% Medium Antique*

Stoneleaf Building Materials are passionate about providing the highest quality natural roofing materials possible to the most discerning clients, architects, housebuilders and home-owners.

Pembury Handmade clay plain tiles are cut, shaped, and moulded by hand using clay carefully mixed from the finest deposits. Once air dried they are coal fired in a Hoffman kiln which has been in service since the 19th century, it's manual operation has been passed down from generation to generation.

The Pembury tile range will help you maintain the individuality of your restoration project or give depth of character to your new home. A truly handmade natural clay product. Available in four colours, these tiles can be used on their own or mixed together to create custom blends. We also offer feature and ornamental tiles, including club, bullnose, diamond, and fishtail designs.
