

Stoneleaf Celtic Sea Green

A1,T1, S1 Roof Slates
100 year guarantee

STONELEAF
Natural Slates

SPECIALISTS IN NATURAL ROOFING SLATE AND CLAY TILES

The Stoneleaf Celtic Sea Green natural roofing slate is hand-split from robust finely grained metamorphic rock. Its distinctive green colour and textured surface will produce a roof finish with depth and distinctive character.

Ideal for both new build and refurbishment projects, the Stoneleaf Celtic Sea Green is a cost effective option for specifiers, developers, roofers, private homeowners, and conservation officers where the local environment would benefit from a slate of this texture and colour. It can also be used as a suitable replacement for the Westmorland Green Slate.

Achieving top ratings A1, T1, S1 in the European Test BS EN 12326-1:2014 for Water Absorption, Thermal Cycle and Sulphur Dioxide Exposure, the Celtic Sea Green is suitable for use in all construction environments.

Technical Details

Sizes Available: 500 x 250 mm
400 x 250 mm

Random & diminishing slates available on request

Grade Heavy
Extra Heavy

Approx thickness Heavy: 7-9mm
Extra Heavy: 11-13mm

Pre-holing Supplied Un-holed,
Holing available if required

Colour Green

Texture Riven Surface, Dress Edges

Coverage /m2 500x250: 19.1 @ 90mm lap
400x250: 24.6 @ 90mm lap

Weight when laid 45kg/m2
based on 400x250 7-9mm
Heavy @ 90mm lap
